Virtual art gallery talk and tour through Zoom

Reflections & Connections is a free, creative art workshop for individuals living with young-onset and early-stage dementia and their care partners.

The Alzheimer's Association Oregon & Southwest Washington Chapter has partnered with the Jordan Schnitzer Museum of Art in Eugene to deliver this program via Zoom. Each workshop will include a conversation based on artworks in the museum galleries. The program aims to be a positive, fun and creative experience for everyone involved and serves as a platform for social connection with others.
